29 January 1981

MEMORANDUM FOR: Mr. John A. Bross

FROM:

George Allen and I would like to reiterate our thanks for your taking the time to address the Senior Officer Development Course. All the members were impressed by your frankness and by your common sense answers to some of the problems facing the Agency. It was particularly important to the students because this was the first exposure they had to any member of the new Agency administration.

As I mentioned to you, we would be particularly honored to have a brief session with Mr. Casey in his conference room next week at a time convenient to him. The best time for us would be anytime Wednesday or Thursday, Friday afternoon, or Monday morning.

The new DCI could talk about whatever he wanted to but one possibility would be the priority problems he feels the Agency should tackle first and the direction he would like the Agency to take over the next four years. A possible format would be some brief remarks from the Director, say about 15 or 20 minutes, or however long he wanted to take, followed by a question and answer period. The whole thing would last no longer than 45 minutes to an hour.

You will also recall that we discussed some input from you as to what the class could do for its final two day exercise. If any particular problems come to your mind that the members could address, please let us know.
